

Subject: Public Comment on Transportation Committee Meeting

Date: Monday, November 3, 2025 at 7:16:29 AM Pacific Standard Time

From: Andrew Blackney

To: David Leger

Good morning David here is my public comment for the C line extension to Torrance item on the transportation committee agenda

Hi there, my name is Andrew Blackney and I am a resident of Lawndale. I am calling on the South Bay council of governance to support the Metro C line extension to Torrance for a variety of reasons. First and foremost is the ease of access. It would give to all residents of the South Bay to the greater LA area. It would also give The residents of the greater LA area access to the South Bay and its many attractions. I have many cousins who would love to be able to visit Monkish Brewery in Torrance with out having to worry about getting a DUI. This extension would give them that option. I would love to be able to ride the K line to and from LAX instead of spending increasingly more funds on Uber rides into and out of LAX. The Metro project has done a great deal to address residents concerns like sounding boards for the path through the ROW to decrease noise, planting more trees then they would need to remove, and providing a green space for the residents in the form of a walking path. This project is well situated to be funded by Metro and when they certify the EIR it will be even more competitive. If this project falls short due to lack of support it is very likely that this will shut the door on the highest quality public transportation in the South Bay for a generation. Please support this project and ensure we don't lose our on this opportunity.
